

Requirements Review and Update

MEETING

Google Meet, 8 Oct
2026

UPDATE SHARED

9 Oct 2026

WEB APP

ssg.vjas.in

PREPARED BY

Vishwa Shah

In our Google Meet on 8 October 2026, the Shraman Seva Group team asked for four changes to the app. All four are completed and updated in the app. This document lists each requirement, what was built, where to find it, and the one item still pending.

✓ Status at a glance

#	REQUIREMENT FROM THE SSG TEAM	STATUS
1	Adding a Vihar details photo	Completed
2	Sevak profile: Vihar type and preferences	Completed
3	Upcoming Vihar: wheelchair, car seva, police security, emergency contact person and mobile	Completed
4	Routes: via, Google Maps link and WhatsApp button	Completed
5	Android app listing on the Google Play Store	Pending

1 Vihar details photo

Asked: a place to upload a photo of the Vihar when it is recorded.

- A new optional **Vihar Photo** field in the last step of the Vihar entry form.
- Works for a Sevak's **Submit Vihar for Approval** and for the Captain's **New Vihar Entry**.
- Take a photo with the camera or choose one from the gallery. It is resized automatically, so it uploads quickly on mobile data.
- The photo appears on the Vihar card and in the Captain's **Pending Approvals** review, and can be changed or removed when editing.
- Photos are kept in each Vihar Group's own folder, and only that group's members can add them.

Where: New Vihar Entry, step 4 "Instructions & Review"

New Vihar Entry

4 Instructions & Review

SAMUDAY

e.g. Labdhi Vikram

NOTES / REMARK (OPTIONAL)

Add any specific instructions or observations...

VIHAR PHOTO (OPTIONAL)

Add a photo of the Vihar
From the camera or the gallery

< Back

Submit Entry

Step 4 of the Vihar entry form

2 Sevak profile: Vihar type and preferences

Asked: each Sevak should record which Vihars they join and how they like to serve.

- A new **Vihar Preferences** section in the Sevak's Profile.
- **Vihar Type** (choose one): Internal, External or Both.
- **Seva Preference** (choose any): Walking, Car Seva (Updhi), Wheelchair Seva.
- Both now count towards the Sevak's profile completion, and the Sevak is reminded to fill them in.
- The Captain sees, and can edit, both in each Sevak's details and in the member export.

Where: Profile & Settings, Your Details, Vihar Preferences

The screenshot shows a form titled 'Vihar Preferences' with the subtitle 'Which Vihars you join and how you like to serve.' It includes an 'ADDRESS' field with the value 'A-14/15 New Siddhivinayak CHS'. Below this is a 'VIHAR TYPE' dropdown menu currently set to 'External'. At the bottom, there is a 'SEVA PREFERENCE (choose any)' section with three radio buttons: 'Walking' (selected), 'Car Seva (Updhi)', and 'Wheelchair Seva'.

Vihar Preferences in the Sevak profile

3 Upcoming Vihar alert: more details

Asked: when a Captain announces an upcoming Vihar, capture the arrangements needed.

- **Name of Samuday** and **Name of Sadhu / Sadhvi**.
- **Wheelchair required:** Yes / No, and if yes, how many.
- **Car Seva required:** Yes / No.
- **Police security opted:** Yes / No.
- **Emergency contact person** and their mobile number.
- Every Sevak sees these on the Vihar alert card, with a one-tap call button for the emergency contact. They are also included in the WhatsApp share message and in the notification ("Wheelchair x2, Car Seva, Police security").

Where: Dashboard (Captain), Alert Vihar

The screenshot shows a mobile app interface for 'Announce Upcoming Vihar' with the subtitle 'Every Sevak gets notified instantly'. It features several input fields: 'NAME OF SAMUDAY' (with example 'e.g. Tapagachchh'), 'NAME OF SADHU / SADHVI' (with example 'Names of the Maharaj Saheb / Sadhviji'), 'WHEELCHAIR REQUIRED' (Yes/No buttons), 'HOW MANY?' (input field with '1'), 'CAR SEVA REQUIRED' (Yes/No buttons), 'POLICE SECURITY OPTED' (Yes/No buttons), 'EMERGENCY CONTACT PERSON' (Name input field), and 'THEIR MOBILE' (input field with '10 digits' placeholder). At the bottom are 'Cancel' and 'Send Alert to All' buttons.

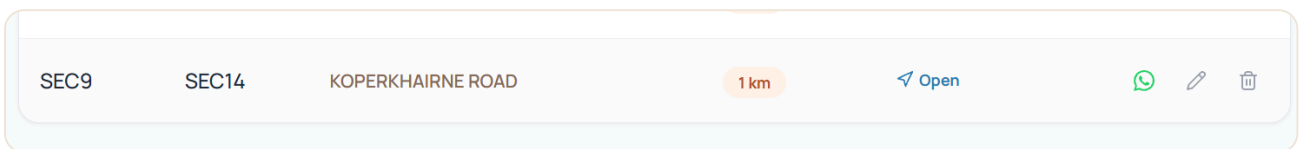

The new fields in Announce Upcoming Vihar

4 Routes: via, Google Maps and WhatsApp

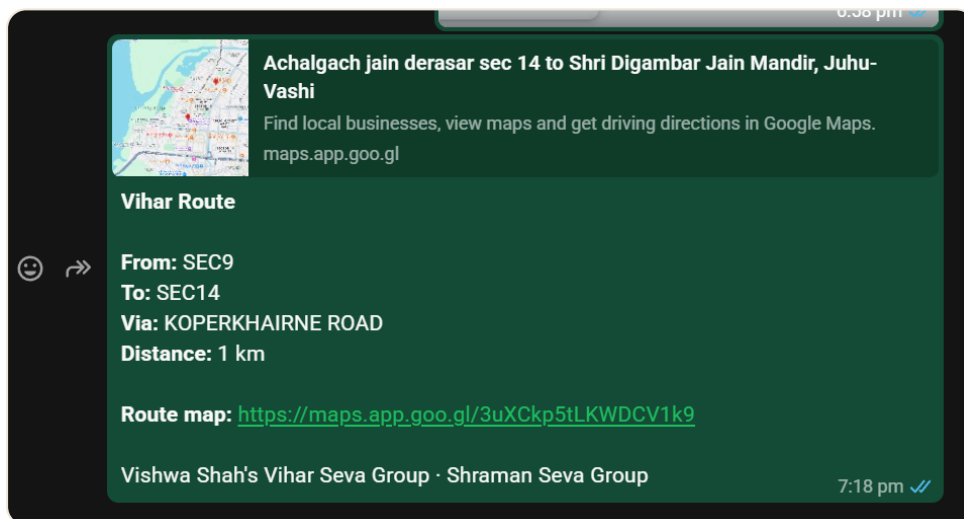

Asked: routes should show the way taken, link to the route drawn in Google Maps, and be easy to share with the group.

- New optional **Via** field, so the same From and To can have different routes (for example "SEC9 to SEC14 via Koperkhairne Road"). The direct route still sets the Vihar distance.
- New optional **Google Maps link**: the Captain draws the route in Google Maps, taps Share, and pastes the link. Each route then has an **Open** button that shows that exact route.
- A **WhatsApp** button on every route opens WhatsApp with a ready message (From, To, Via, Distance and the route map). The Captain only picks the group.

Where: Manage Routes, Add Routes and View All

A route with its via, map link and WhatsApp button

The message as it arrives in the WhatsApp group

Also included in this update

Alias for each Sevak

An optional reference name, shown as "Name (alias)" and searchable in Org Members.

Fixed member numbers

#1 is the first Sevak added and each number stays with its Sevak.

Bulk add Sevaks

Upload a CSV or Excel list (Full Name, Mobile, Alias, Gender). Mobile numbers are fixed to 10 digits automatically.

Export as PDF or Excel

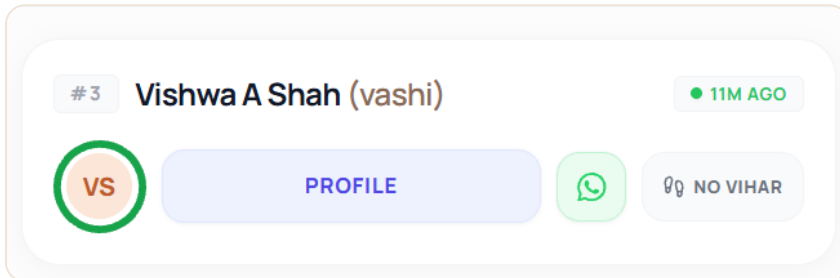

Download the member list in either format.

Same names across groups

Two Sevaks with the same name in different groups can now both be added.

Separate notifications

Shraman Seva Group notifications are kept fully separate from other apps.

A member card showing the alias and fixed number

Pending work

Android app listing on the Google Play Store

Waiting for your approval

The Shraman Seva Group Android app is ready to be finalised. It will be published on the Play Store **after your approval**.

Until then, please test every feature fully on the web app at ssg.vjas.in, on a phone and on a computer, using both a Captain account and a Sevak account. Share any changes you would like before the app is published.

✓ Testing checklist (web app)

VIHAR PHOTO

- ☐ As a Sevak, submit a Vihar for approval with a photo from the camera.
- ☐ As the Captain, open Pending Approvals and check the photo appears.
- ☐ Add a Vihar entry as the Captain with a gallery photo, then edit it and remove the photo.

SEVAK PROFILE

- ☐ As a Sevak, set Vihar Type and two Seva Preferences, then save.
- ☐ As the Captain, open that Sevak's details and check both values.

UPCOMING VIHAR

- ☐ Send an alert with wheelchair (count 2), car seva, police security and an emergency contact.

- ☐ As a Sevak, check the alert card shows all details and the call button works.
- ☐ Share the alert on WhatsApp and check the message.

ROUTES

- ☐ Add a route with a Via and a pasted Google Maps link.
- ☐ Tap Open and confirm the right route shows in Google Maps.
- ☐ Tap the WhatsApp button and send the route to a test group.

MEMBERS

- ☐ Add a Sevak with an alias, then try Bulk upload with the template file.
- ☐ Export the member list as PDF and as Excel.

? For our next discussion

- Feedback from your testing of the four completed changes.
- Go-ahead for publishing the Android app on the Play Store.
- Any further fields or changes the team would like next.
